DUMBBELL & BARBELL STORAGE

 **WATSON**
PROUDLY MADE IN
GREAT BRITAIN 

DON'T JUST STORE - DISPLAY.

A well-organised dumbbell and barbell area is an essential part of any training space. But for the very best, presenting your world-leading Watson Dumbbells & Barbells on a purpose-designed storage system creates a unique focal point that sets your gym apart.

Watson dumbbell & barbell racks are designed to provide a strong, secure and practical storage solution, keeping your weights organised, accessible and ready for use.

Built with the same focus on quality and durability as our world-leading stainless steel dumbbells, our dumbbell & barbell racks are made to withstand the demands of busy commercial gyms, performance facilities and dedicated home training spaces.

ROTATING DUMBBELL RACKS

The Watson Rotating Dumbbell Rack is a practical and space-efficient storage solution designed to keep your dumbbells organised, accessible and ready for your next workout.

Featuring a rotating design, the rack provides easy access to your dumbbells from multiple positions, making it simple to select and return weights without unnecessary movement around the gym. Its compact footprint also helps maximise available training space while maintaining a clean and professional environment.

TIERED DUMBBELL RACKS

The Watson Tiered Dumbbell Rack is designed to provide organised, accessible storage for your dumbbells while making efficient use of your training space.

Its tiered configuration allows dumbbells to be clearly positioned and easily accessed, helping you quickly find the weight you need.

By raising each tier, the design improves visibility and accessibility across your dumbbell collection, while helping to maintain a clean and organised training area. This makes it particularly well suited to busy commercial gyms, strength and conditioning facilities and serious home gyms.
